Innovative technology to lead brand promotion
to a higher level of aesthetics

360 SIGNAGE CIRCLE / CUBE

360 Signage Circle / Cube is an innovation in digital signage and display.

Implementing a design that catches the customer's attention

With an effective design for store promotion, product and brand promotion, you can express video or images more artistically on the LED screen.

Resolution /Brightness

360 signage circle/Cube shows high resolution and strong brightness.

Easy to install and maintain

As a slim and light standard product, it can be installed in any space, making it easy to move, install and maintain.

Easy video display

Easy video and image change using USB plug&play method

Stable LED device and Advanced IC chip

Durability and stability of about 100,000 hours of use. Evolved video transmission with 13th generation IC design

Bezel-less LED display

There is no video boundary, so one big screen can be realized and you can watch advertisements from anywhere in 360 degrees.

360 Signage Circle

360 Signage is a 360-degree display
that can be viewed from any position,
designed for smooth curves and sharp image quality.

360 signage showing the effect of multiple units at the price of one!
Boost your business and create fantastic publicity effects
with a new level of aesthetics for advertising or brand promotion.

360 Signage Cube

360 Signage Cube is new and popular 360-degree display
that can be viewed from any position.

Start your brand promotion with much creativity,
with various ways of install like
Standing, Wall mount, Hanging, etc.

Implementing a design that catches the customer's attention

It is an effective design for store promotion, product, and brand promotion, so you can enjoy advertising from anywhere in 360 degrees.
